

Avivia

Pharmaceutical Product Innovators

We are:

“Your partner to develop your pharmaceutical drug delivery system and lead it into in GMP production !”

We

Create value in your pharmaceutical products

are

Experts in complex drug formulation development

Avivia

Seasoned staff with a focus on IP creation

Track record: Product development

1. 11 Injections: 6 IV, 2 IM, 2 SC and 1 IP
2. 8 Solid orals: 6 delayed or controlled release
3. 4 Oral solutions of which 3 for use in Children
4. 2 Topicals
5. 4 Excipient characterizations
6. 1 Nitrosamine mitigation strategies

Classes: antipsychotics, oncolytics, hormones, antimicrobial/
anti-infectives, CNS, cardiac & veterinary, OTC, nutraceuticals

Track record: Used Technologies

1. Multiparticulates
2. Mesoporous silica loading
3. Fixed dose combinations
4. IV to sublingual
5. Intravitreal sustained release
6. Intra-articular injection
7. IV to Oral
8. Oral to IV
9. Oral Controlled release
10. Topical/transdermal
11. Long acting injectables
12. Oral solutions
13. Lyophilized tablets
14. Sterile API in vials

Classes: antipsychotics, oncolytics, hormones, antimicrobial/
anti-infectives, CNS, cardiac & veterinary

Technology capabilities & equipment

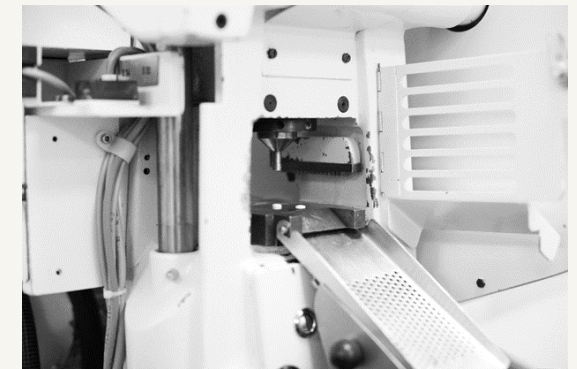

The next slides provide an overview of our key laboratory capabilities & equipment that we have available in-house in our state-of-the-art laboratory facilities

**Pharmaceutical
development**

**Analytical
development**

**Dissolution
testing**

**Excipient
characterization**

#DareToAsk:
Who wants to partner up with us for business fairs and events?
