Martin van Collenburg

Introduction Martin.. Not a job but a career in Pharma

What we stand for

We are unified around our purpose: We use the power of leading-edge science to save and improve lives of people and animals around the world.

For more than 130 years, we have brought hope to humanity through the discovery and development of important medicines and vaccines.

We aspire to be the premier research-intensive biopharmaceutical company in the world – and today, we are at the forefront of research to deliver innovative health solutions that advance the prevention and treatment of diseases in people and animals.

BOOSTING PHARMA - EMPOWERING CAREERS

Workplace Learning with MMLS

MSD 2026

Introduction Alyza

2020

Moved to the Netherlands from Aruba

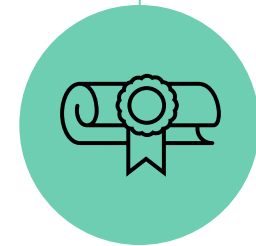

2024
Graduation Bachelor's degree at HAN University of Applied Sciences

2024
Enrolled Master Molecular Life Sciences at the HAN

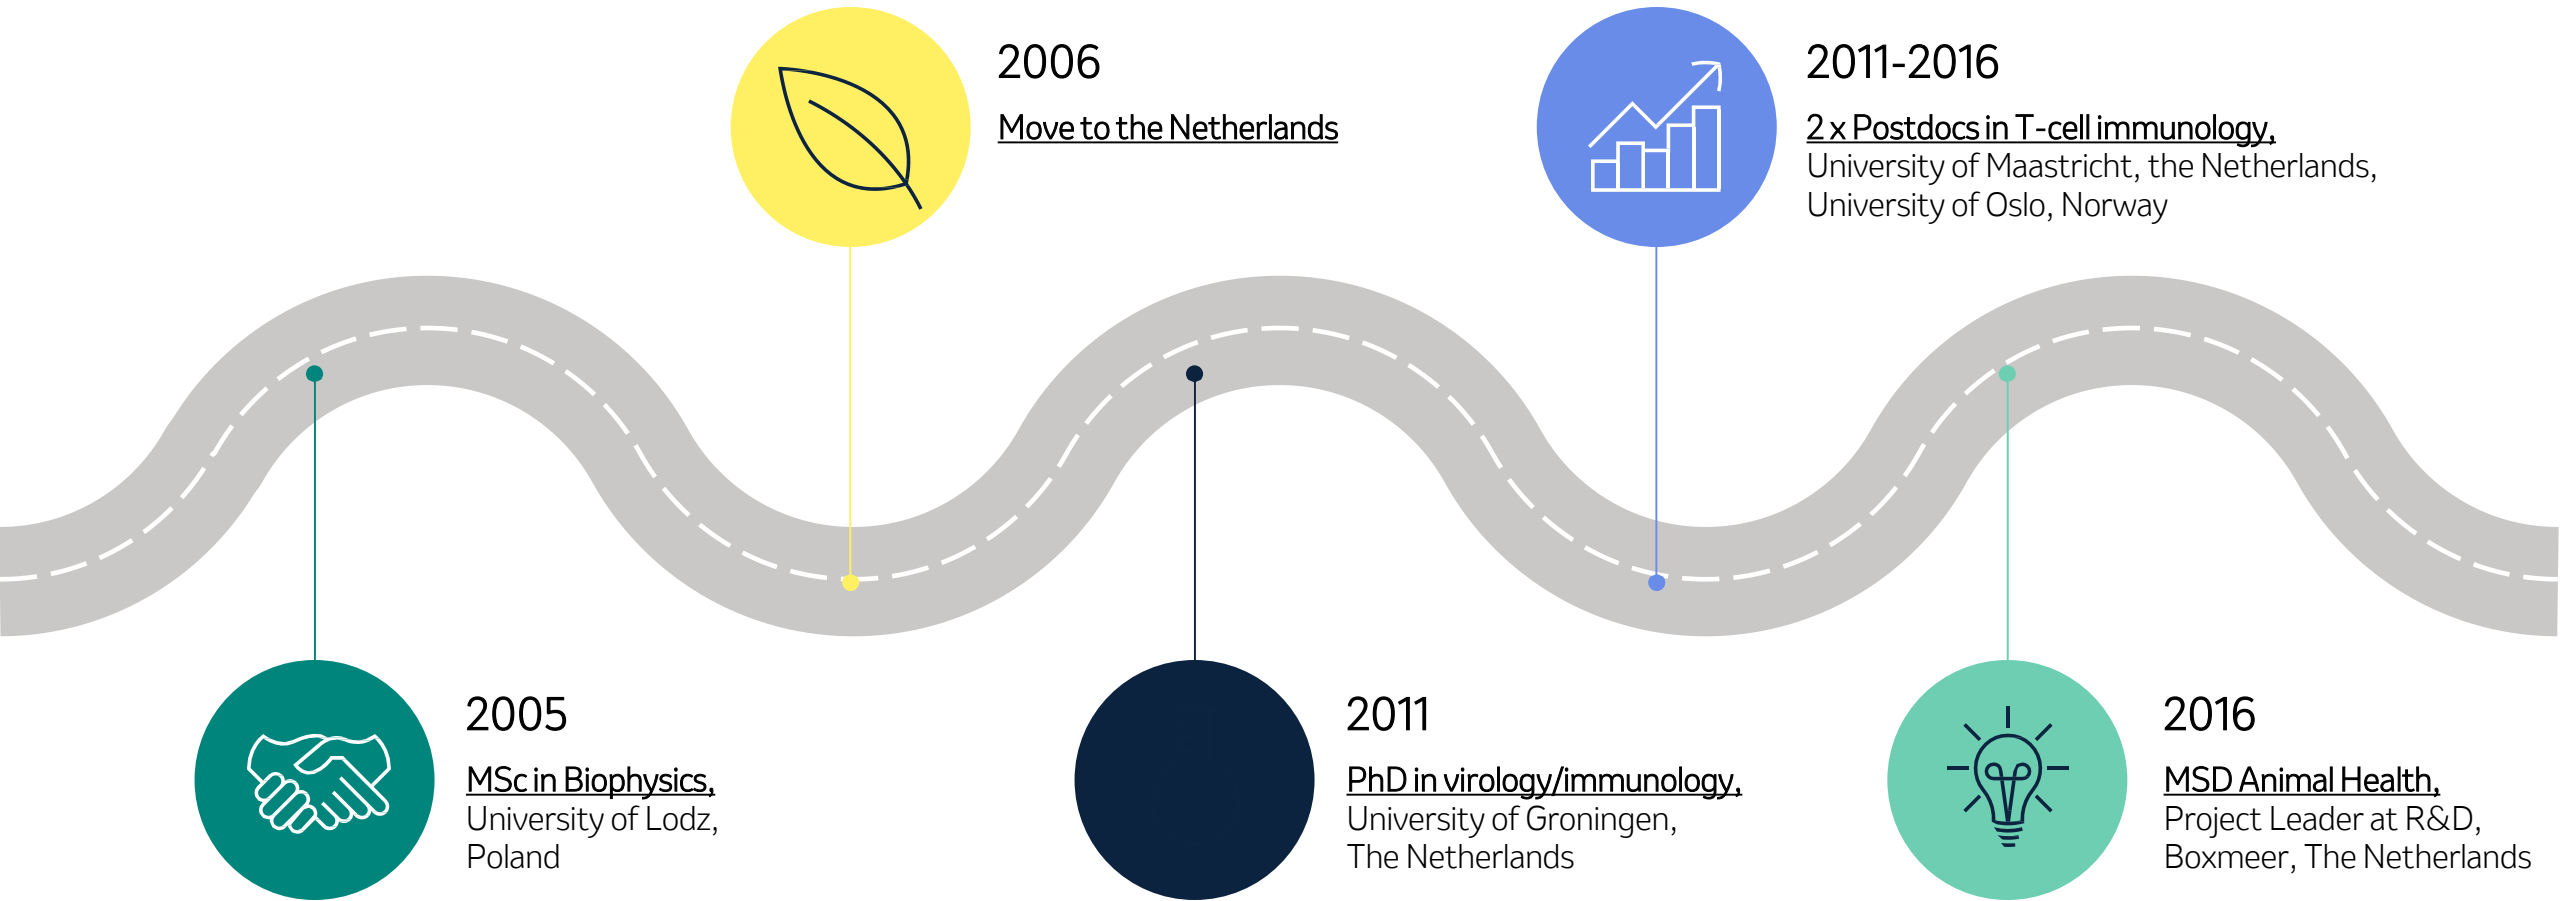

Internship at MSD

2026
Graduation MMLS

Introduction Mateusz

WE ARE A **GLOBAL HEALTHCARE LEADER**

We are unified around our purpose: We use the power of leading-edge science to save and improve lives around the world.

We work with customers in some 150 markets to deliver broad-based healthcare solutions.

We demonstrate our commitment to increasing access to healthcare through far-reaching policies, programs and partnerships to help people and animals around the world lead healthier lives.

One Health

Integrated approach to enhance the health of humans and animals:

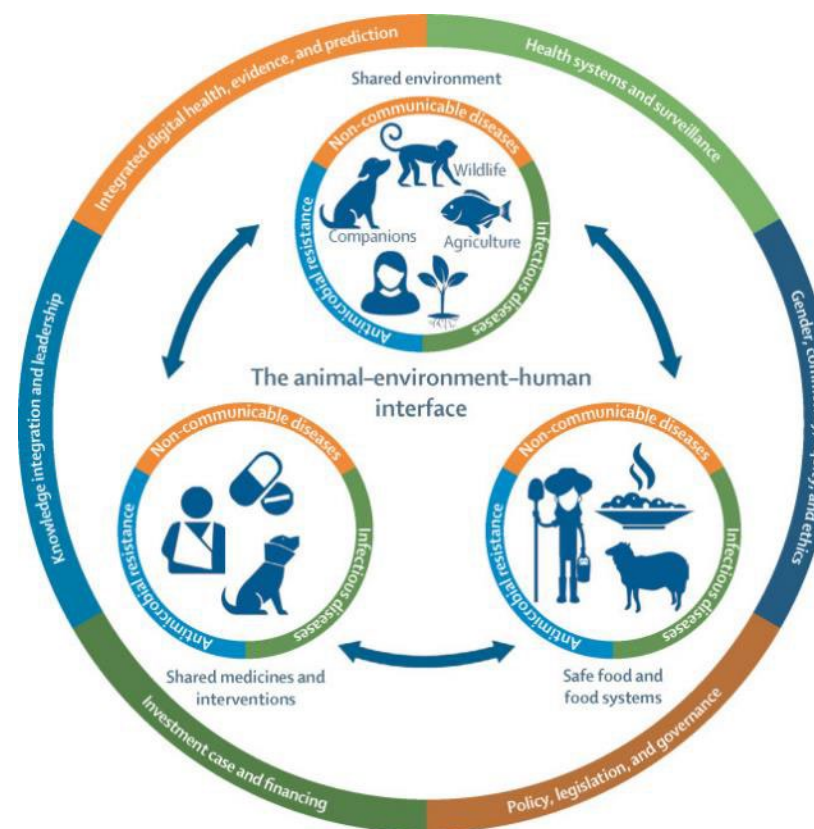

Shared Environment: Animals share the environment with humans and our commitment is to shape the future of animal health and well-being

Safe Food and Food Systems: People rely on animals as food sources and to help produce food

Shared Medicines and Interventions: Medicines to treat health conditions in humans originated from animal agriculture, such as praziquantel and ivermectin

Our company is in the unique position to shape the future

One Health Framework as established by the Lancet One Health Commission

MSD's Experience with MMLS Student

Key Benefits

- Longer with company - higher return on investment
- Deeper scientific contribution
- Better integration into the team and culture
- Stronger talent pipeline
- Ability to align with academic milestones

Points to Consider

- Longer management and supervision commitment
- Reduced short-term flexibility
- Risk of project misalignment over time
- Dependency risk
- Administrative and HR complexity

Students Experience with MSD

Key Benefits

- Diverse topics that strengthens practical and scientific skills
- Collaboration with colleagues that build strong professional relationships
- Engagement in long-term projects
- Building strong management skills
- Sustained development supports meaningful personal and professional growth

Points to Consider

- Time limitations (during part-time) for practical tasks that take longer
- Study load from school can shift priorities in the workplace

Key Takeaways

Alyza's (student) Experience

Understanding how your working style influences others tasks and timelines is critical for effective collaboration

Applying lecture content in practice and seeing its impact reinforces learning

MSD (company) Experience

Treat it as a long-term collaboration, not a short internship

Invest early in clear expectations and structure

Plan the work in phases, not as one long project

Feedback is a core responsibility

Thank you
